

Create your own Halloween Skeleton Decorations

Items Needed:

- Baby Cotton Ear Buds
- Googly or sticky eyes
- PVA Glue
- Black Card
- Foam Sheets
- Permanent Marker

Method:

Using your cotton ear buds glue down one cotton bud for the beginning of its spine. Next add the ribs by gluing 5 cotton buds horizontally across the spine. Glue the shoulders to the top rib, create an elbow by gluing another cotton bud to the bottom of the arm. Trim 4 cotton buds to make some fingers off the wrist and glue down. Add the legs to either side of the bottom rib, glue the knees using another cotton bud and cut an ear bud in half to glue down to make its feet. These funny bones are a great way to make cards or decorations for celebrations.
