## Create your own Halloween Yarn Mummies

### Items Needed:

Gingerbread man stencil or cookie cutter (see the gingerbread man easy download if you do not have a stencil or cutter)

Sticky eyes

Coloured Yarn

PVA Glue

White Card or recycle old packaging.

Hole punch

Ribbon (or you can use yarn again)

### Method:

Draw around the gingerbread man stencil on to the black card.

Carefully use the scissors to cut out the gingerbread man.

Using PVA glue stick on the googly eyes.

Open one end of the yarn, stick the end down onto the mummy and start wrapping them up. Don't forget to go all different directions. When you have finished wrapping, cut off the excess yarn and either thread through to tie off or use some more PVA to keep the end tidy – watch as your mummy comes to life!

## Happy creating!
