

Familiar Faces Activity Ideas

The cards in this game are double sided, one side has the faces on, and the other side has playing cards.

- Any type of traditional card game using the playing card side.
- Familiar Faces Bingo.
- As well as naming the person you see on your card, can you also name what they do for a job? You could make some name labels to give with the card to help people recognise the face, just put them to one side so the person can label the pictures themselves.
- Lay all the cards out on your photocopier and scan them to create more copies of the cards. You can then use these to play "Pairs" or "Snap" with either side of the cards.

Cut this out and use for
the name tags.
