

## Papier Mache Pumpkin Kit

Welcome Autumn with some decorations such as these lovely pumpkins. Add dried leaves, pinecones and berries to the display.

- Inflate the balloon to the desired size.
- Tie some string or ribbon around the balloon to make the sections.
- Mix PVA glue and water at a 50/50 ratio.
- Rip scrap paper into strips.
- Brush the PVA glue mixture over a section of the balloon and apply your first layer of paper.
- Keep repeating this method until fully covered. We recommend around 3 layers does the job.
- Build up the top of the balloon to resembles the pumpkins stalk.
- Leave to fully dry, preferably overnight.
- Your pumpkin is now ready to decorate.
- Paint your pumpkin your desired colour, we recommend, orange, yellow, brown or green.
- Once the paint is dry you can add your finishing touches for Halloween such as stickers, painted faces, fairy lights.
