

Autumnal Wreath

- Place your wreath in front of you, if using a natural wreath there is no groundwork to do, if you are using a poly wreath see our free download on decorating polystyrene products.
- Materials that you can use are pinecones, dried flowers and leaves, acorns, ribbon, feathers, dried fruit, dried pasta, tissue paper, fabric flowers, red berries and clay.
- Use ribbon, craft wire or a cool melt glue gun to fix items to the wreath.
- If using clay, remember to make a hanging hole to thread ribbon. These can then hang from the bottom of the wreath.
- Below is the list of products we have suitable for making your wreath amazing!
